Hi Daniel,

Here are my comments for the website:

The Georgetown Building has been a home to the Orange County Southern Baptist Association for over 3 decades and it was a joy to be there all of those years. Its comforting atmosphere begins as you pull up to the building and view its classic exterior and then only gets better as you enter and feel the comfort and smells of home. As a young pastor I came there to see my director in one of the lower suites and those rooms became synonymous with comfort and care and when we needed to downsize, there was also another beautiful suite that our organization occupied at an excellent rate. I have rented many buildings and warehouse space but none have been as beautiful or as accommodating as the Georgetown building. The staff were always kind and generous and met whatever needs that we have promptly like we were family because when you are in a place like that for that long, you become a family. It was a sad day when our board voted to leave that building as there is so much of our rich history and fond memories there. We pray blessings over the building and over the tremendous staff and owners who so generously partnered with us all of those years.

Thank you for accepting my testimonial

Victor Chayasirisobhon  
Director of Missions  
Orange County Southern Baptist Association
